Note: Primers specified on this list are for coating over **New Substrates ONLY**. If painting over an existing coating, the coating **MUST** be sound, clean and deglossed. Any rust or loose paint must be removed and the area spot primed with the above primers based on type of substrate. Once completed prime entire area with 3210 Gripper. Please refer to the product specification guide if there are any questions or refer to you Glidden Sales Team to assist you.

Please Contact **Dixie Mitchell** Glidden National Accounts Manager (678) 516-7510 for your nearest Glidden representative to assist you. All products listed are special order. Allow reasonable lead times for all paints & related products.

• All product available through Home Depot. Please contact Dixie Mitchell for assistance.

• Walls or columns constructed of natural materials (brick, stone, etc.) that are currently non-painted should remain non-painted.

• Natural materials that are currently painted should be painted Clark Light Grey.

• Building and canopy fascias that are too textured to effectively film over with the red/dark blue scheme should be painted.

• Fascias constructed of wood or metal shingles should be painted.

• Special Order products can only be ordered in case quantity (4 gallons per case) or 5 gallon buckets based on availability.
